#### PROPOSAL DEADLINE:

#### INTRODUCTION:

Through a global network of international offices and strong support in the U.S., USSEC helps build a preference for U.S. soybeans and soybean products, advocate for the use of soy in feed, aquaculture and human consumption, promote the benefits of soy use through education and connect industry leaders through a robust membership program.

#### PURPOSE OF RFP:

USSEC's standard practice is to RFP every 3 years in an openly and competitive manner. This type of cost analysis will assist in determining the fair market value for the work to be performed and allows USSEC the opportunity to evaluate various proposals and select the best contractor for the job based on experience, availability, expertise, approach, and cost

The purpose of this RFP is to seek proposals for the development and maintenance of a database to catalog the international usage of a trademarked logo.

#### BACKGROUND & PURPOSE OF PROJECT:

The Sustainable U.S. Soy logo (above) is a trademarked logo used internationally by various companies to promote the use of sustainable U.S. soy in products. As it is a trademarked logo, legal documents are required to be signed by the parties using the logo. At this point, the documentation associated with the logo use have been saved locally in the regions; not

allowing for adequate tracking of the full use of the logo. This RFP is seeking the development of a database that can track where the logo is being used.

**TARGET AUDIENCE: Internal USSEC**

**SCOPE (SERVICES) OF WORK:**

The database should track the following items by company that has registered to use the logo:

- Region (dropdown) – North Asia, Greater China, Southeast Asia, Asia Subcontinent, EU/MENA, Americas
- Country – free text
- Company – free text
- Product Name using logo on – free text (up to 10 separate line items)
- Product Category using logo – free text
- Attachment Abilities for the following documents:
  - Sustainable U.S. Soy Certification Mark License Agreement
  - Logo Image
  - Product Image
  - PDF of email communications approval
- Date approved by communications – pop up calendar to select the date

Reporting capabilities should provide the data entered in each company record with the ability to pull reports filtered by company, product and region.

Proposal should include a yearly maintenance component for any small updates or technical assistance.

## **SUPPLEMENTAL INFORMATION AND BACKGROUND**

*BUILDING A PREFERENCE FOR U.S. SOY*

USSEC's strategy can be found here: <http://ussec.org/about-ussec/vision-mission/>

USB's Long Range Strategic Plan can be found here: <http://unitedsoybean.org/about-usb/strategic-planning/>

We are a dynamic partnership of key stakeholders representing soybean producers, commodity shippers, merchandisers, allied agribusiness and agricultural organizations.

Through a global network of international offices and strong support in the U.S., we help build a preference for U.S. soybeans and soybean products, advocate for the use of soy in feed, aquaculture and human consumption, promote the benefits of soy use through education and connect industry leaders through a robust membership program.

Our 15-member board of directors is comprised of four members from the American Soybean Association (ASA), four members from the United Soybean Board (USB), and seven members representing trade, allied industry, and state organizations.

New board members are seated annually. We are receiving funding from a variety of sources including soy producer checkoff dollars invested by the USB and various state soybean councils; cooperating industry; and the American Soybean Association's investment of cost-share funding provided by the United States Department of Agriculture's (USDA) Foreign Agriculture Service.

The United Soybean Board, created by the 1990 Farm Bill to manage and direct the National Soybean Checkoff, is dedicated to marketing and research for the soybean industry. USB is comprised of 73 volunteer soybean farmers representing the interests of fellow growers nationwide. Each board member is nominated by Qualified State Soybean Boards (QSSBs) and appointed by the U.S. Secretary of Agriculture.

Because of the limitations on administrative and salary costs established in the Act, USB outsources the majority of its program management responsibilities to USB's three primary contractors:

- SmithBucklin-St. Louis for domestic marketing, new uses, production research and Board initiative activities;
- Osborn & Barr Communications for communications/public relations activities and;
- United States Soybean Export Council (USSEC) for international marketing and global opportunities activities.

As one of these three primary contractors USSEC may also undertake initiative activities on behalf of USB. USB considers primary contractor staff (approximately 60 people) as core USB staff. These three primary contractors use a number of subcontractors and, together, these entities carry out approximately 450 projects each year for USB. USB also manages approximately 10 subcontractors.
